

Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Monday 15 Nov 2021

++ Valid for broadcast between 0600 and 1800

Headline:

Fog lifting but staying grey and gloomy with patchy drizzle.

Today:

Mist and fog slowly lifting into low cloud this morning. However, remaining grey and drab with light rain and drizzle at times through the day, especially across Cumbria. Not as mild as over the weekend but winds remaining light. Maximum temperature 12 deg C (54 deg F).

Tonight:

Staying mild and at times damp overnight with low cloud, mist and hill fog across the region. Occasional periods of light rain and drizzle, but tending to become drier later. Minimum temperature 4 deg C (39 deg F).

Tuesday:

Low cloud, mist and hill fog at first, but slowly brightening up with a few glimmers of sunshine in places. Becoming breezier later. Some rain moving southeast through the evening. Maximum temperature 12 deg C (54 deg F).

Outlook for Wednesday to Friday:

Brighter and somewhat cooler on Wednesday with sunny spells and a few showers. Cloudier and milder on Thursday and Friday, with patchy rain and drizzle, mostly over higher ground.
